Date of patient examination: 18/11/07

Time of examination: 1 pm

City/town: Gualeguaychú

Sex: male

Date of birth: 12/04/99

Pregnant: No

Identity document #: 41785953

Signs/symptoms: Allergic reaction

Treatment: None

(Signature) Marcos Taffarel, MD. Patient referred to and treated by Dr. Suarez.

Date of patient examination: 11/12/07

Time of examination: 11 am

Patient details

Name: Nelly Pivas

Address: Urquiza 2055

City/town: Gualeguaychu

Sex: female

Date of birth: 5/07/40

Pregnant: No

Identity document #: 3929285

Telephone No.: 424589

Circumstances of exposure: environmental

Channel of entry: inhalation/cutaneous

Initial severity: slight

Signs/symptoms: Red throat – Dry skin and mucous membranes

Tests requested: X ray of thorax (front)/Hemogram/Hepatogram

(Signature/seal) María Anneris Florentin – MD/Surgeon. Professional licence #
[illegible].

Institution: Hospital Centenario

Date of patient examination: 22/11/07

Time of examination: 10:20 am

Date of exposure: 12/11/2007

Time of exposure: 11 pm

Duration of exposure: unknown

Latency: none

Patient details

Name: Maria Elena Marchioli

Address: Bv. Daneri 473

City/town: Gualeguaychu

Sex: female

Date of birth: 03/02/50

Pregnant: No

Identity document #: 6134651

Telephone No.: 425630

Circumstances of exposure: environmental

Place of exposure: other

Type of exposure: severe

Type of agent: unknown

Channel of entry: inhalation

Initial severity: moderate

Signs/symptoms: Dysphonia – nasal, pharyngeal and retrosternal burning – rhinitis – bronchospasm – irritation of oropharyngeal mucous membrane

Tests requested: X ray of thorax (front and side) / Hemogram / Hepatogram / Urea / Creatinine

(Signature/seal) María del C. Sosa – MD.

Institution: Hospital Centenario

Date of patient examination: 29/11/07

Time of examination: 12 pm

Date of exposure: 28/11/2007

Time of exposure: approximately 10 pm

Duration of exposure: 12 h

Latency: 14 h

Patient details

Name: Jesica Folmer

Address: [illegible]

City/town: Gualeguaychu

Sex: female

Date of birth: 30/04/91

Pregnant: No

Identity document #: 35700636

Telephone No.: 15417862

Circumstances of exposure: environmental

Channel of entry: inhalation

Initial severity: moderate

Evolution: Recovery

Signs/symptoms: burning eyes, burning sensation in upper respiratory tract – epigastric pain - nausea

Tests requested: X ray of thorax / Hepatogram / Urea / Creatinine

Recommended Treatment: Symptomatic treatment – Oral ingestion of liquids/electrolytes

Comments: Patient states that her family has been experiencing similar symptoms for 2 or 3 days.
